

# How Do You Feel About Backyard Fireworks?

**88%** of Ohio respondents to a recent survey  
**are against backyard fireworks.**

Prevent Blindness asked our database of donors, partner vision screeners and partner educators for their thoughts.

We posed the following prompt:  
***Let us know how you feel about backyard fireworks.***

Here are the replies...

Last year, **injuries due to consumer discharge of fireworks increased by 56%!**

Let your Ohio Senators and Representatives know that you **oppose the new fireworks legislation** and that you **DO NOT want Ohio to go from being one of the 4 safest states to one of the 5 MOST DANGEROUS** with respect to the discharge of fireworks by anyone, at any time of day or night, all year long, in any back yard across Ohio.
